Konstantina Rodi

Computer and Informatics Engineer

I am Konstantina Rodi and I was born in Patras in 1991. From an early age, I was greatly interested in computers and the way they function and perform. Following this dream of mine, I have recently graduated from the Department of Computer Engineering & Informatics at the Technological Educational Institute of Western Greece after successfully completing my thesis on networks ("Networks and their Applications").

Education

Computer and Informatics Engineering
Technological Educational Institute of Western Greece

2010 – 2016   *Patras*

Courses

- Networks
- Telecommunication systems
- Programming(C,SQL,Java, Web Development)

Diploma of Specialty Support Systems, Applications and Networks
7th Technical Professional/Vocational Lyceum

Courses

- Structured Programming
- Multimedia applications
- Databases
- Computer Networks
- Operating Systems

Personal Projects

Thesis : Networks and their Applications

- The aim of this project is the implementation and explanation of applications on the network do-main. For the applications' implement used Cisco's simulation program, packet tracer. A key fea-ture of these applications is the easy understanding of various aspects of networks.

Work Experience

Internship as Technical Support Assistant
Computer Technology Institute

05/2016 – 11/2016   *Patras*

The Computer Technology Institute and Press "Diophantus" is a research and technology organization focusing on research and development in Information and Communication Technologies (ICT)

Tasks/Achievements

- Technical and electronic user support for the information system MySchool (https://myschool.sch.gr/)
- User support via special software Ticketing
- Editing and formatting use and exploitation driver manuals
- Extensive testing and debugging software
- Preparation and dissemination of information material

Skills & Attributes
